- Attach information and documents as required in the application.
- Submit a Non-refundable Application Fee for $5,000.00 per license type.
- Sign Marijuana Facility/Establishment Zoning Assurance Letter.
- Sign Criminal History Disclosure and Background Record Authorization.
- Each application for a marijuana facility/establishment received by the Charter Township of Kalamazoo will have the date and time of receipt recorded on the application by staff. For applications received in person, this will be the actual time of receipt. For applications received by mail, this will be the time of delivery.
- The Clerk of the Charter Township of Kalamazoo or his designee will review the initial application for administrative completeness as soon as practicable following receipt. The applicant will be notified of administrative completeness or any deficiencies as soon as practicable. As soon as an application is deemed to be administratively complete, the priority of that application will be established based on the recorded original time of receipt, or the time at which all deficiencies have been corrected, whichever is later.
- For applications for the “provisioning center”/retailer class of facility/establishment, the Zoning Ordinance of the Charter Township of Kalamazoo provides for a buffer zone of 500 feet between like uses. In case of several applications for provisioning centers/retailers with proposed locations closer than this buffer zone distance, priority will be determined according to the paragraph above. Applicants are encouraged to inquire prior to submitting an application fee as to location of competing applications.

- Submit Special Use application fee and escrow (see fee schedule included with the Special Use Application form).

The Planning Commission may grant conditional special use approval, delay action until a complete site plan is provided, or deny the application based upon conformance to the requirements of the zoning ordinance. If conditional special use approval is granted and site plan approval is granted, then notice of approval will be given in writing to the applicant who must then apply to the State of Michigan for final license approval and building inspections.
